## Summary

I'm a product designer that solves customer and business problems with simple, efficient tooling, and excel at taking an idea from 0 to usable thing. I have 16+ years of UX/UI design, product, and development experience (HTML, CSS, JavaScript, Ruby on Rails, PHP). In my career, I've worked across B2C, B2B, SaaS, and mental health.

I enjoy designing for conversion, driving customer & business value, optimizing onboarding to be effective, and simplifying pains with better tooling. I'm typically writing in Google Docs, on a call with a customer, pixeling in Figma, digging into data, or coding in Sublime Tex.

I've helped businesses reduce churn, increase trial & paid sign ups, optimize feature adoption, set up research & testing processes, create feedback loops, and more. How can I help your business?

## Experience

### Head of Design

Heal.me

Aug 2023 - Present (5 months)

- Optimizing the sales <-> product handoff for maximum adoption and customer value
- Designing a streamlined, modern design system to increase retention and revenue (for use across both saas and marketplace)
- Increasing bookings and customer activations by 20% MOM
- Increasing sales velocity with simpler processes and collateral
- Increasing revenue by 15% MOM
- Lead strategy, research, and design for new features (0-1)

### Lead Product Designer / Design Manager

Thriveworks

Oct 2021 - Jun 2023 (1 year 9 months)

- Reduced clinician churn by 17% by researching onboarding processes and providing actionable steps to improve (downstream growth impact: less \$\$ spent on recruiting, happier clinicians lead to happier, longer-term clients)
- Increased first-session show rate 30% by redesigning the post-booking reminder flow
- Decreased insurance billing issues (i.e. rejections) 20% by redesigning support agent flow
- Optimizing the mental health journey, and trying to make therapists' lives easier + need less technology
- Defined & led UX research process (script, calls, recruitment, recapping, opportunity synthesis)
- Defined & led UX testing process (tools, problem/opportunity to solve, testing setup, recruitment, recapping, opportunity synthesis)
- Lead UX research calls for therapists and clients by understanding their Jobs-to-be-Done
- I pioneered the clinician centric design thinking model: It was about simplicity for them, not complexity

- Designed & validated new tools to streamline therapists daily jobs to increase productivity, satisfaction, and retention
- Led design team weekly reviews, oversaw design system, and set up usability testing

## **Senior Product Designer, Growth**

### Productboard

May 2021 - Oct 2021 (6 months)

- Defined and setup SEO strategy
- Defined continuous research strategy
- Led research and strategy for updated homepage storytelling

## **Director of Growth Design**

### SimplePractice

Sep 2019 - May 2021 (1 year 9 months)

- Increase trial-to-paid activation rate by 25%
